“Catching Kids Before They Fall”

By Keynote Speaker Jim Sporleder

Consultant/Trainer at Sporleder Consulting;
Past Principal at Lincoln High School, Walla Walla, WA

SYNOPSIS: The keynote will use research to show that traditional methods for discipline have lost their impact. Participants will be introduced to a new approach that is backed by evidence-based research.

PARTICIPANTS WILL LEARN:

That many of the disruptive behaviors we see in our schools are students impacted by **trauma and toxic stress**.

That the foundational core of implementing a “Trauma Informed Model” is **caring adult relationships**.

That educators play a major role in helping students change their life path to one that will bring them **fulfillment and purpose**.

Basic strategies to help a student **de-escalate** and begin to learn how to **self-regulate** and **stay connected** with their learning and with their teacher.
